PROBLEM DESCRIPTION

Mazda Dexelia DPF 0W-30/ 5W-30 oil must not be used for SKYACTIV-D 2.2, since it does not meet the requirements of this new engine generation and may lead to severe engine damages. When changing or refilling engine oil on SKYACTIV-D 2.2, always make sure to use one of the following oils:

If any engine oil other than listed above is used for SKYACTIV-D 2.2 engine, Mazda cannot guarantee the performance or reliability. **Consequently, any malfunction of SKYACTIV-D 2.2 caused by use of non-appropriate engine oil cannot be covered by warranty.**

Please note that Mazda Dexelia DPF 0W-30/ 5W-30 oil has been discontinued. The newly established Mazda Original Oil Supra DPF 0W-30/ Ultra DPF 5W-30 is fully downwards compatible, i.e. it can also be used for R2 engine models as well as for RF engine models with DPF.
