Subject: Procedure to remove protective cover from A-pillar trim

DESCRIPTION

If the protective cover for the A-pillar trim is forcibly removed, the upper part of A-pillar trim may deform and not get back to the original position.

To avoid this, please make sure to remove the protective cover according to the following procedure.

Back side view of A-pillar trim

REMOVAL PROCEDURE

1. Hold the protective cover at the bottom of A-pillar trim.

2. To take off gradually pull the protective cover to upward direction.

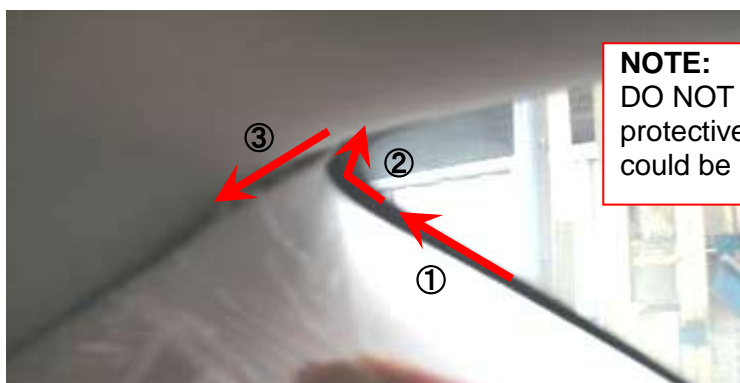

3. Remove the protective cover up to the corner of the front windscreen.

4. Hold the part of protective cover near the A-pillar trim.

5. Pull the protective cover along the edge line of A-pillar trim (along the arrow in the figure) to take off.

NOTE:
DO NOT force to pull out the protective cover, or the A-pillar trim could be deformed.

6. Pull the protective cover toward the vehicle rear (to the direction of arrow in the figure) to take it out between the A-pillar trim and top ceiling.

Note:
DO NOT pull the protective cover downward, or the A-pillar trim could be deformed.

7. Take off the protective cover.
