UPDATED**Update Note. "Procedure" has been updated.****Subject: PDI action for software update for MZD connect and NB1 Navigation****DESCRIPTION**

In order to deliver new vehicle to the customer in perfect condition, the following action is required to conduct as a part of PDI (Pre Delivery Inspection) at the dealer from now on.

- Check software version and update if it is not the latest one for
 - Mazda3(BM) CMU (Connectivity Master Unit)
 - Mazda6(GJ),CX-5 (KE) NB1 TomTom Navigation unit

BACKGROUND

Software development is a continuous process in order to further improve the various systems and their operation. Therefore the software which is available at the time of PDI might be more actual than the software which was installed earlier during vehicle production.

PROCEDURE

Check the latest available software by referring to the Technical Download Server.
Check the software level of the vehicle, and if

1. Vehicle's software is latest level →no need to take action
2. Vehicle's software is older → perform software update according to following procedure

For TomTom Navigation, please refer to SI R084/13.

For MZD Connect, please refer to SI **R115/13**.
