

Clear Blue Sky Rally

It's time for the 2012 Clear Blue Sky Rally, the second in the 2012 Texas Region Rally Championship Series. Starting and ending in McKinney, we will explore the most scenic, twisty back country roads (all paved) of Collin County. Along the way we'll visit the towns of Melissa, established in 1851, Anna, in 1867 and the "oldest town in Collin County", Weston, settled in the 1840's. There will be a few course following problems to keep you on your toes and some fun clues for the questions you will answer along the way.

It's back to the course-following rallies of a couple of years ago. Some of you claimed to be getting bored with the super-easy courses of last year. But don't worry about getting lost. If you make the mistakes we expect, you will drive right back on course without ever knowing you were off-course. This is a common challenge among SCCA rallies, and lots of people think it's loads of fun.
