

TO: All Mazda Dealership General Managers, Service Managers, and Parts Managers
DATE: October 2014
SUBJECT: **Front Air Bag Inflator Replacement - Safety Recall 7914J**

Mazda Motor Corporation has decided that a defect which relates to motor vehicle safety exists in certain 2003-2007 Mazda6, 2004-2008 RX-8, 2006-2007 Mazdaspeed6, 2004-2005 MPV, and 2004 B-Series Trucks that were originally sold in, or currently or previously registered in Florida, Hawaii, Puerto Rico or the U.S. Virgin Islands, which had consistent high levels of humidity.

In the subject vehicles, continued exposure to high levels of humidity may cause the front air bag inflator housing to rupture if the vehicle is involved in a crash where the front air bag is designed to deploy. If this occurs, it may increase the risk of injury to the vehicle occupants.

Dealers are to replace the potentially affected driver side and/or passenger side front air bag inflators of subject vehicles with new one(s). The original inflator must be returned to the manufacturer for analysis according to the instructions described in Attachment IV.

Owners of subject vehicles (except B-Series Truck) will be notified by first class mail beginning October 17, 2014. We anticipate replacement parts for B-Series Truck will be available by late November 2014, and those owners will be notified at that time.

PARTS INFORMATION

A web page to order parts for this recall is available in MXConnect. A complete VIN is needed to process the order.
