

To keep a clean install that avoided going through the suspension, I used 2.5" pressure piping.

Here is the piping list that was created to accomplish this.

Measurements are taken from the center of the inside curve				
Item	Description		Tube side in inches	Throttle body side in inches
1	Elbow 90° 2" - 2.5"		1.25	2.5
2	Pipe 60° 2.5"		9.5	4
3	Elbow 45° 2.5"		3	4.375
4	Pipe 30° 2.5"		7.5	3
5	Elbow 90° 2.5" - 3"		2.5	3
6	Intercooler with 3 mount brackets and cut out crash bar			
7	Elbow 90° 3" - 2.5"		3	2.5
8	Pipe 30° 2.5"		2.25	8.5
9	Coupler 2.5"		3	total length
10	Pipe 60° 2.5"		4	11.75
11	Elbow 90° 2.5" - 3"		2.5	3
