

M-TIPS

2004 RX-8

CD Player Loading

Customers may complain their CD player will only accept one (1) disc. All RX-8 models are equipped with a single disc CD player (shown below) from the factory. The 6 disc changer is only available as an accessory or port installed option. Note: Both single & 6 disc players have a “LOAD” button.

“LOAD” button

Vehicles equipped with a 6 disc changer have a “6 DISC” icon located on the faceplate. It is important to verify the type of CD player before attempting repairs related to multiple CD loading.
