

VEHICLES EQUIPPED WITH SATELLITE RADIO

SATELLITE RADIO DISPLAY INDICATES UPDATING XX% OR INVALID CHANNEL

Some 2008-2012 Sirius Satellite equipped vehicles may indicate UPDATE XX% or INVALID CHANNEL in the radio display due to a radio update performed by the satellite provider.

RI 7642

Following an update, models equipped with Sirius radio may have presets with channels that have been eliminated. If these presets are selected, the radio display will read "INVALID CHANNEL" when that channel is tuned.

Repair Procedure:

1. The customer can get the new channel at <http://www.siriusxm.com/channellineup>.
2. Tune to the new station.
3. Press and hold the preset button to replace the invalid channel preset.

Please see Owner Guide section: Entertainment Systems, for more information about the Sirius Satellite Radio provider.

WELCOME to the world of Satellite Radio
