1998-2004 B-Series Truck

## DESCRIPTION

In accordance with Federal regulations, follow the procedure listed below when replacing a speedometer.

### NOTE:

- Mazda vehicles are manufactured with tamper-proof speedometers.
- When a speedometer is replaced, the new speedometer will read zero (0) miles.
- This procedure is extremely important to accurately represent actual vehicle mileage.
- Prior to speedometer removal, complete the information required on the "Speedometer Replace-

ment Label”.

- Labels can only be ordered through MStore, not MDCS.

## REPAIR PROCEDURE

### SPEEDOMETER REPLACEMENT

1. Order “Speedometer Replacement Labels” through MStore.
2. Record vehicle mileage before removing the speedometer.
3. Remove and replace the speedometer according to the appropriate workshop manual.
4. Complete the following information on the “Speedometer Replacement Label.”
  - a. Mileage (before speedometer replacement).
  - b. Date of replacement.
  - c. Dealer code.

<p><b>SPEEDOMETER REPLACEMENT</b> Mileage: _____ (Before Replacement) Date Replaced: ____/____/____ Dealer Code: _____</p>
--
